

Question / becomes design.

I'm a graphic and multimedia designer at **Stars Design** in Amman. I make social media campaigns, reels, 3D and print for brands in food, fashion, retail and delivery, from the idea through to the finished post.

Cheez Khaliya

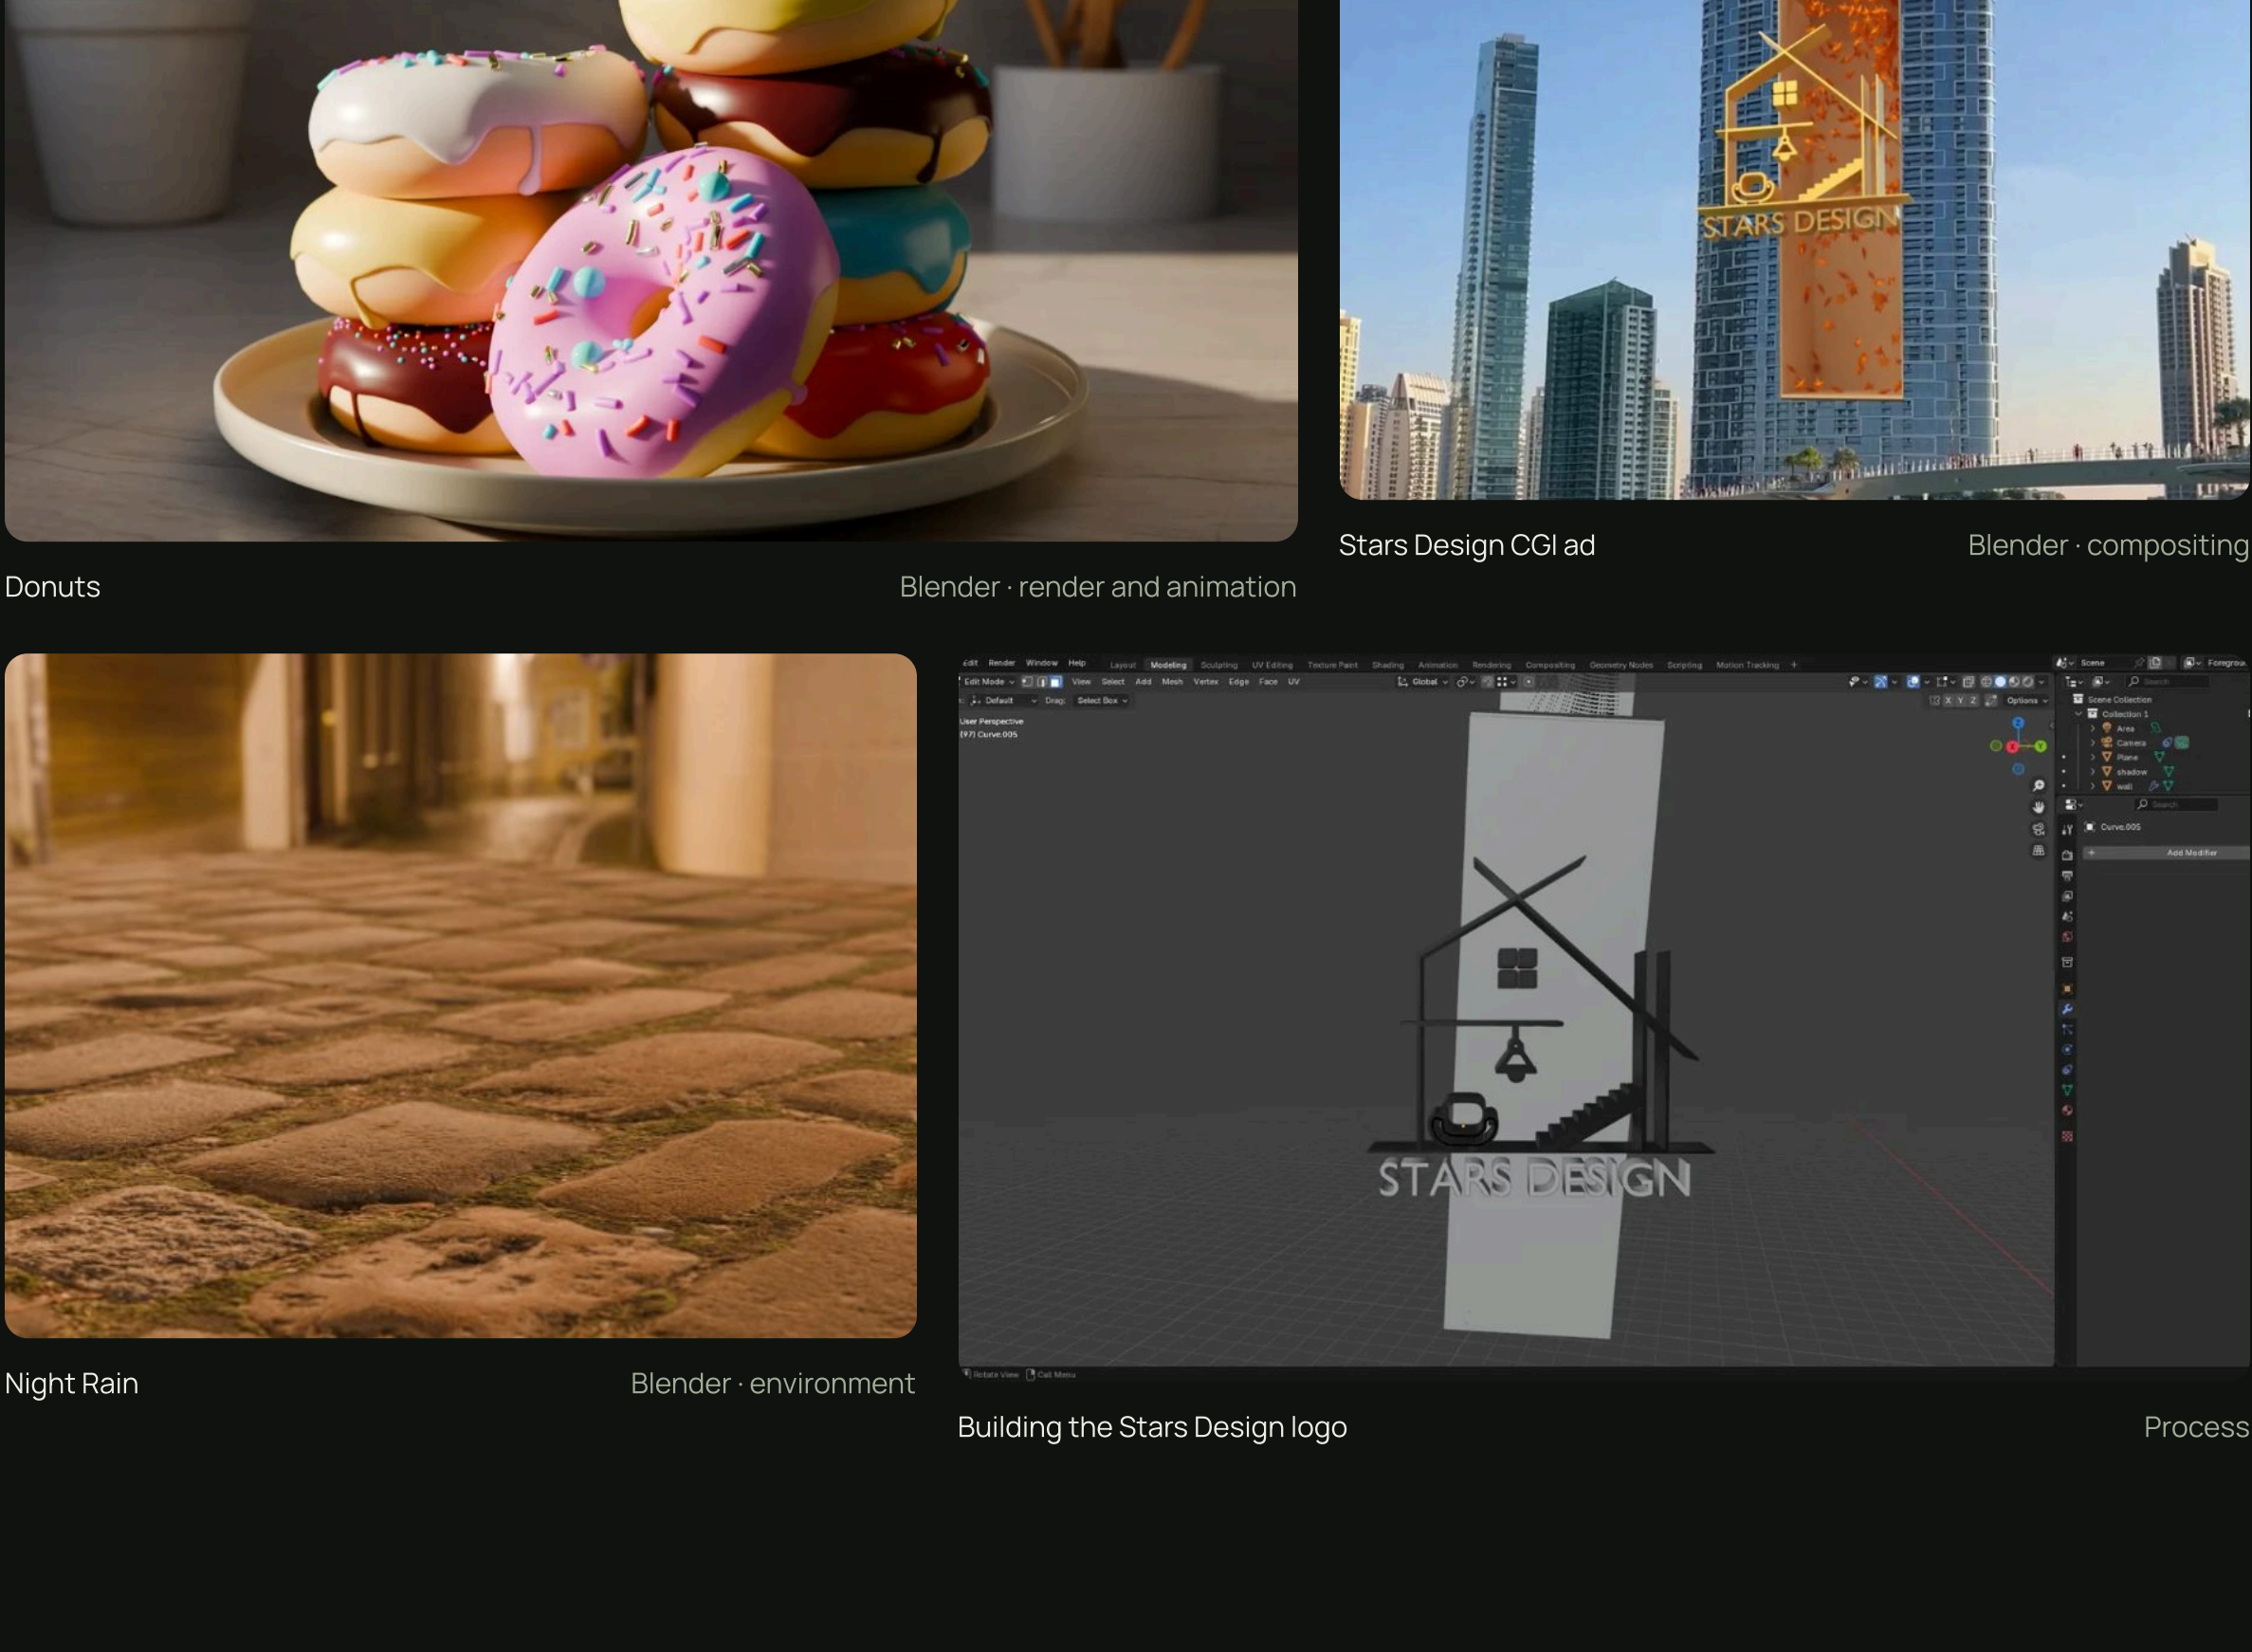

Ongoing social content for a cheese-bread restaurant with three branches in Amman. I did the idea, design and execution for all of it, including the logo, product posts, the Treasure Card loyalty campaign, seasonal posts for the World Cup and Independence Day, and the reels above.

Work: Logo, posts, reels, copy
Formats: 4-5 posts, 9-16 reels
Language: Arabic

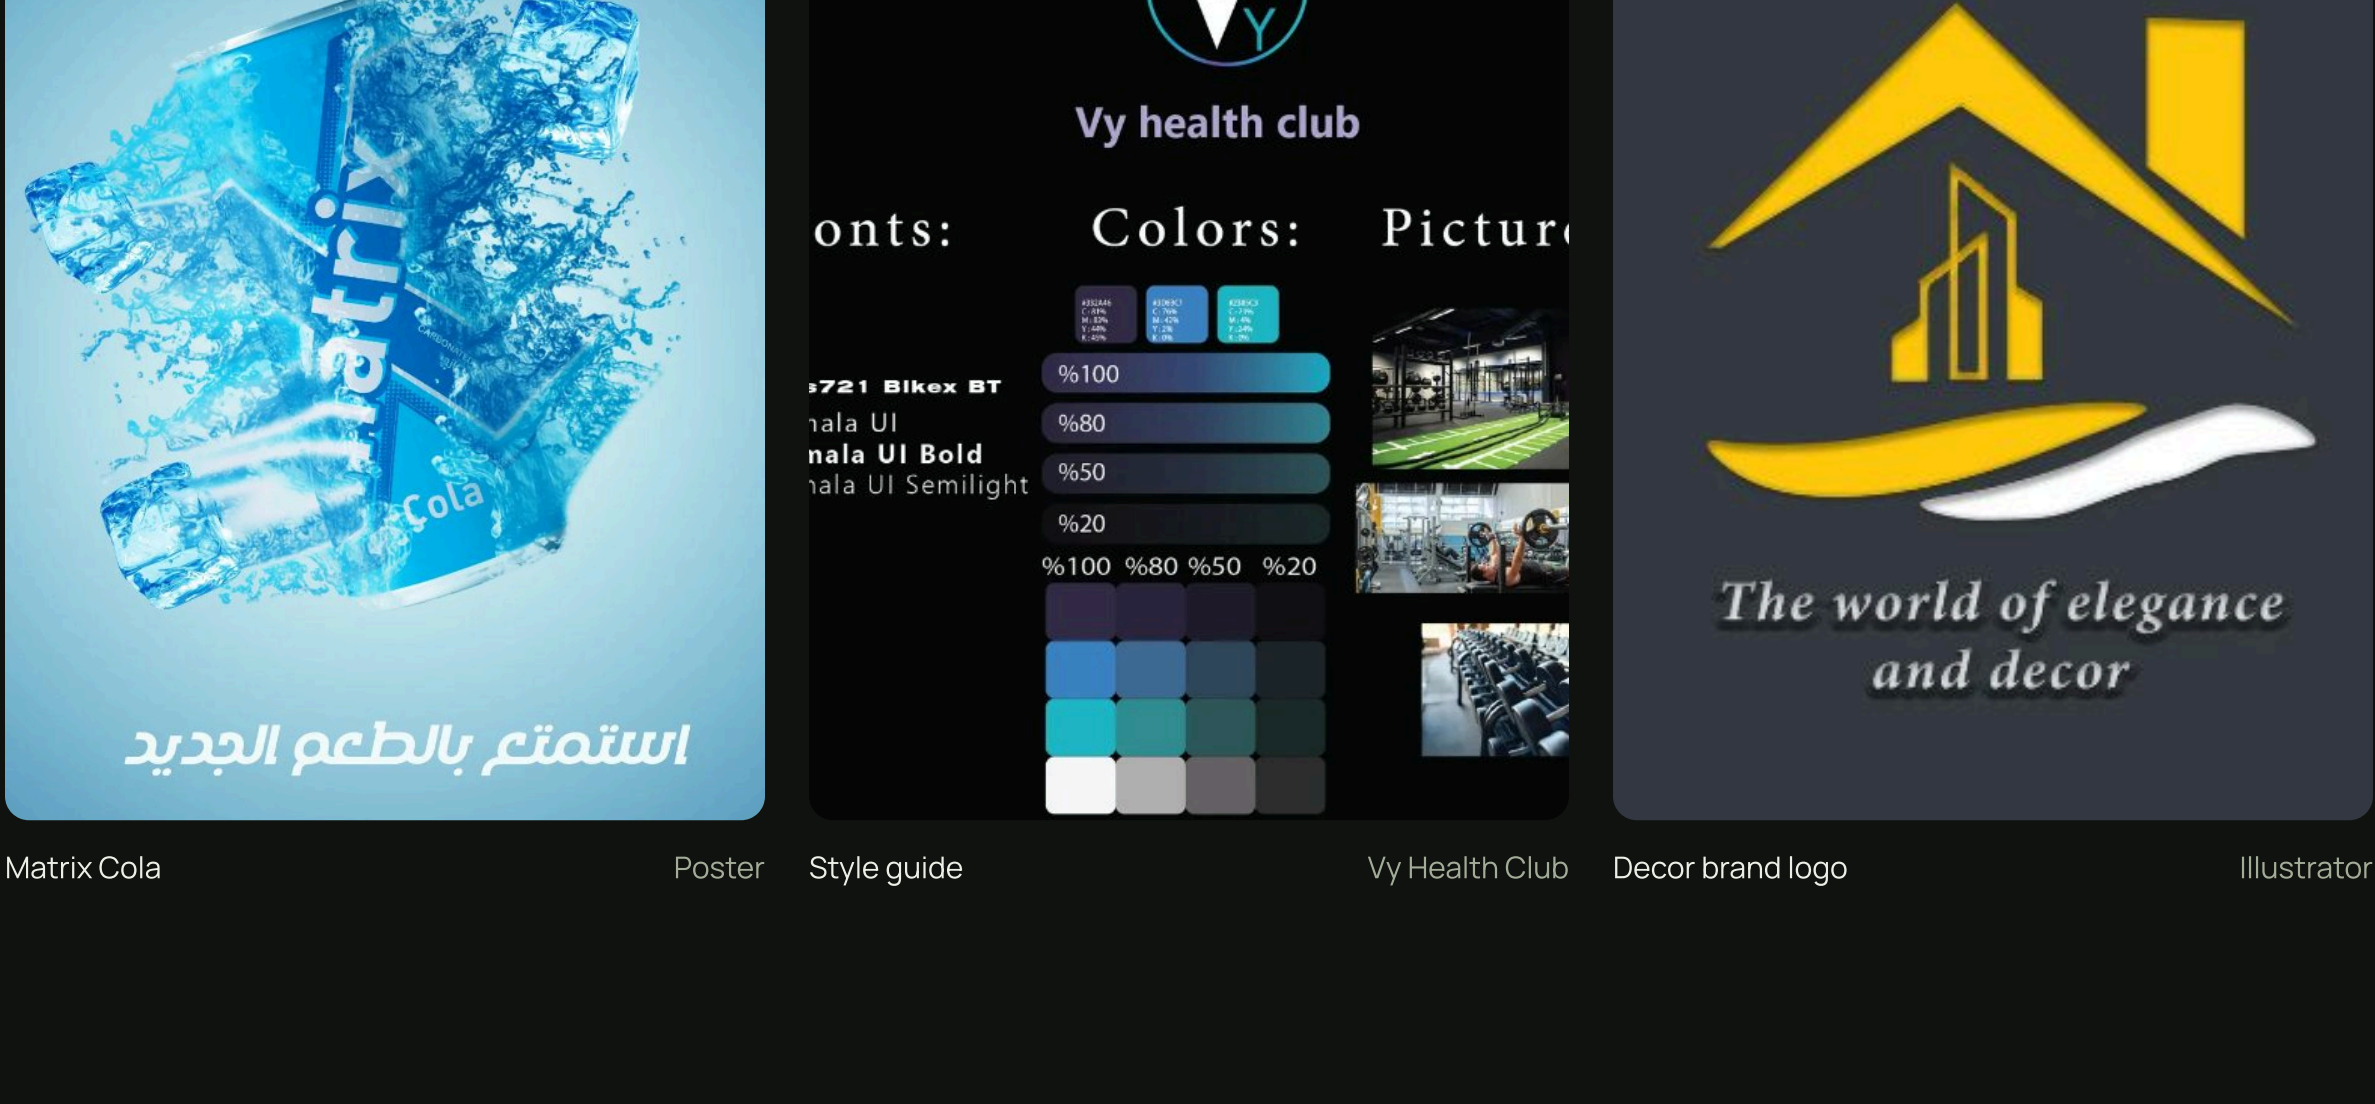

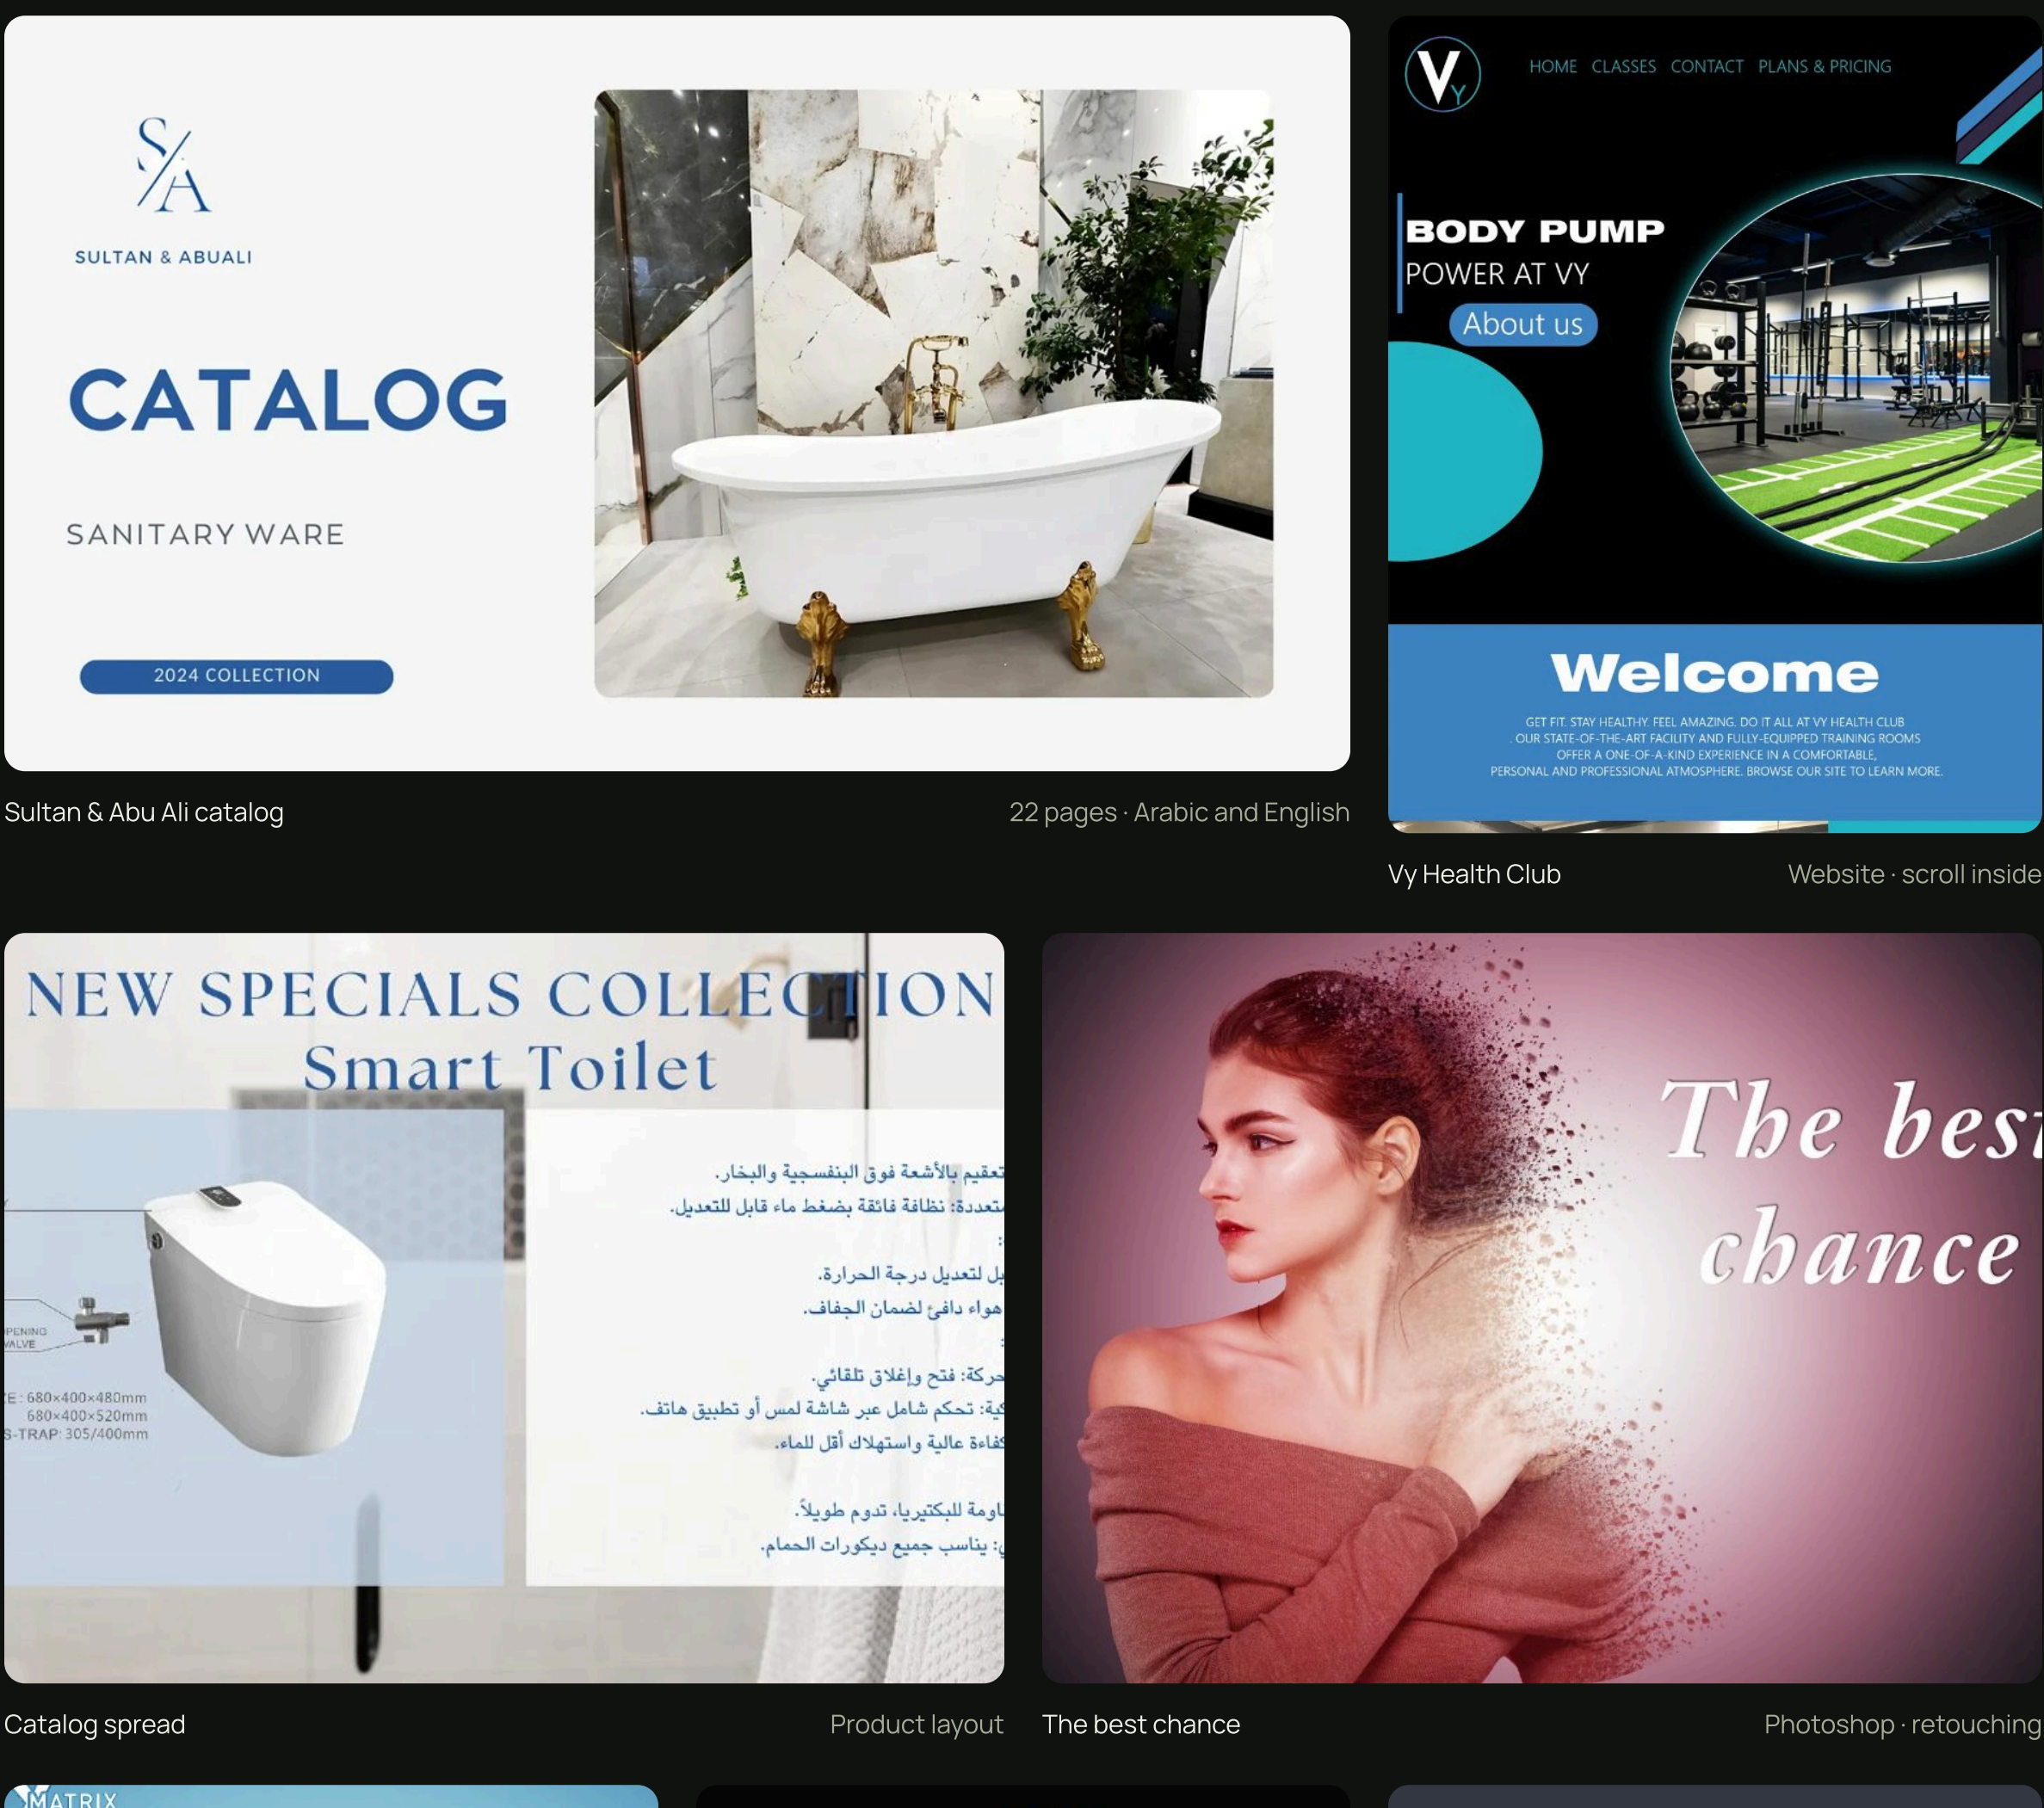

3D and CGI

Scenes, product renders and CGI built in Blender, from modeling and materials to lighting and the final video.

Print, UI and posters

A bilingual product catalog, a full website design, and single pieces that show range in retouching and advertising.

I've been designing at Stars Design since December 2023, for clients in interior design, food, fashion, retail, childcare, pet care, healthcare and delivery. I write the idea and the caption, design the post, shoot or render what's needed, and edit the reel.
